

(PDF) milestones.pdf: Presentation of the milestones (programs developed, topology fragment discovered) and the associated date/time. For each program developed, provide the finish date/time and the responsible team member(s). For each topology fragment discovered, show the screenshots of the program output, draw the diagram of the topology fragment, and provide the name and Howard ID of the team member making the discovery. Each topology fragment can only be attributed to one team member.

10/12/23 Github repository creation - Michael J. Johnson Jr.

10/15/23 Working session: Implemented traceroute with Shell Command, and Scapy - Entire group

10/16/23 Working session: refactoring code - Entire group

10/17/23 Working session - Entire group

10/18/23 Added mongodb auth - Christian

10/23/23 Traceroute data collection/testing in Lewis K. Downing Building - Guy, Christian, Pernell

10/24/23 Thread manipulation and Traceroute data collection in Health Science Library and Blackburn Building - Christian, Pernell, Michael
